

# COMPANY PROFILE

2020

## About APM Kingstrack

APM Kingstrack, is an internationally reputed GPS Tracking company, offering world-class GPS Tracking solutions that help clients to track and manage Vehicles, Students, Field workers and Industrial machines. APM Kingstrack is an approved manufacturer of AIS 140 VLT device and Vehicle CCTV camera (IS 16833:2018 and AIS004) from the Authorized Testing Agency (ICAT). APM Kingstrack has a variety of GPS solutions such as Fleet tracking, Workforce tracking, School kids tracking, Temperature monitoring, Fuel monitoring and Garbage collection.

## Objectives

- To provide top quality professional GPS Solutions to customers
- To provide best and competitive pricing compared to competitors
- To have keen observation over products & technology trends and move with those trends

## Vision

APM Kingstrack's vision is to become one of the top five GPS tracking companies in the world that provides high-quality cutting-edge technology solutions with great reputation and professional satisfaction, both for the clients and ourselves, and also match our offerings with best after sales and support services.

# Why APM Kingtrack ?

# AIS 140 Device

### GPS+AGPS tracking

Allow the location to be pinpointed in real time or periodically

### Tracked by: SMS, APP, Web

Reports location in real time through different interfaces

### 50000 Internal data storage

Memorize a large amount of GPS data for history review

### IP 66 Dust & Waterproof

Water-resistant to ensure stable operation in tough environment

### Multiple alarms

Instant alerts for SOS, overspeed, low battery, vibration, etc

### Driver Behavior Monitoring

Monitor the driving behavior of the driver based on the accelerometer

### SOS Emergency Call

In case of emergency, Press the SOS button to trigger an urgent call

### ACC detection for ignition status

Be aware of the ignition status whenever you need

### Built-in battery

170mAh Li-ion battery ensuring sufficient internal power supply

### Remote cut-off (petrol/power)

Compel the vehicle to stop by breaking off the fuel connection

### Multiple I/Os

Digital Input/Output for remote monitoring and control

### Door status detection

Get instant alert when your car's door is open unexpectedly

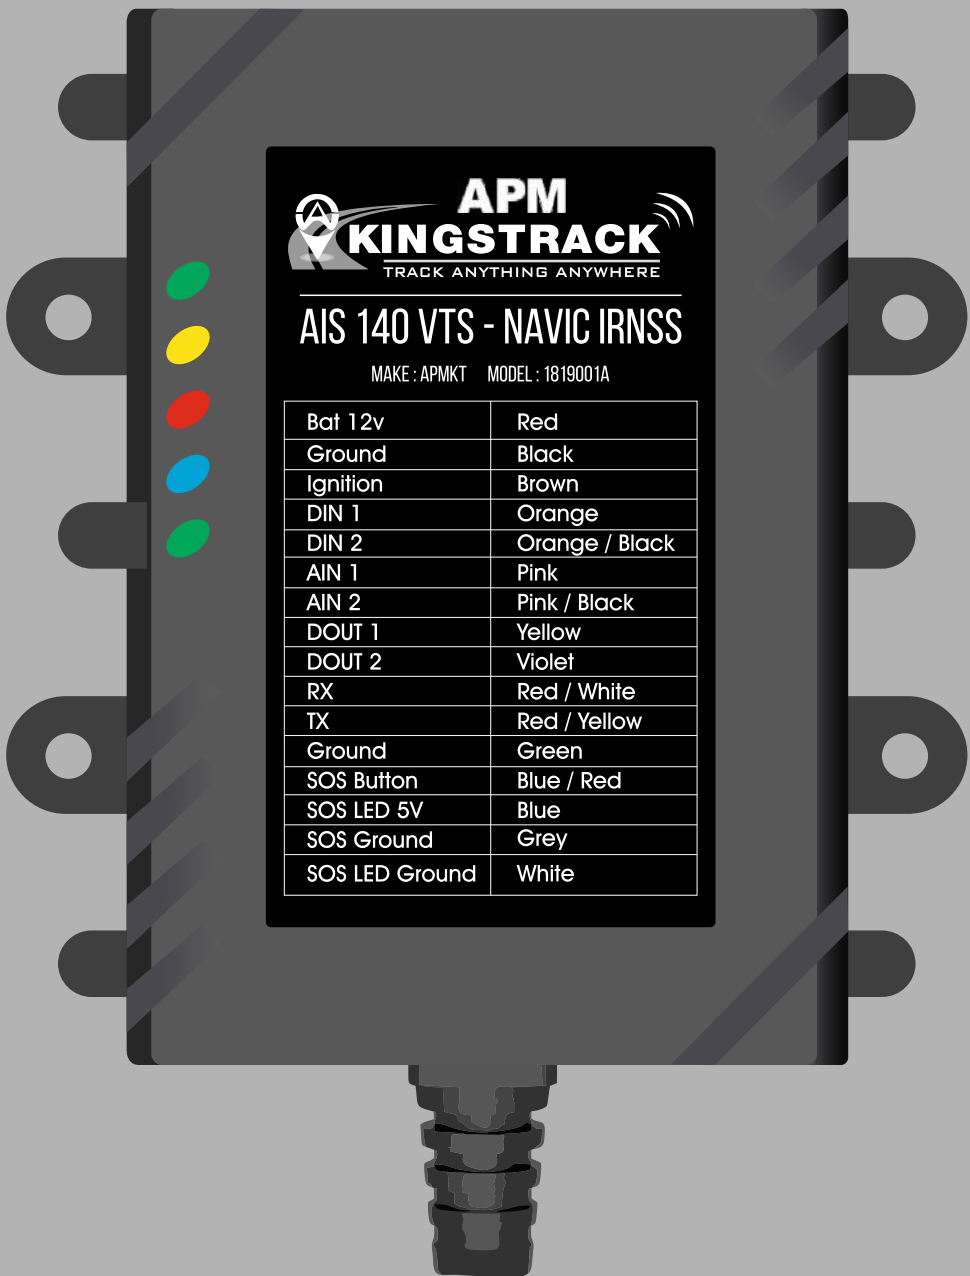

### Rs232 serial communication interfaces

Support Fuel level sensor, RFID reader

### Multiple Alarms

Instant alert for power off, GEO-Fence

# Basic Device APMKT-101

**GPS+AGPS tracking**  
Allow the location to be pinpointed in real time or periodically

**Tracked by: SMS, APP, Web**  
Reports location in real time through different interfaces

**Internal data storage**  
Memorize amount of GPS data for history review

**IP 41 dust proof**

**Multiple alarms**  
Instant alerts for SOS, overspeed, low battery, vibration, etc

**ACC detection for ignition status**  
Be aware of the ignition status whenever you need

**Bullt-in battery**  
170mAh Li-ion battery ensuring sufficient internal power supply

**Remote cut-off (petrol/power)**  
Compel the vehicle to stop by breaking off the fuel connection

**Multiple I/Os**  
Digital Input/Output for remote monitoring and control
