

you support the nation building..  
and we support you...

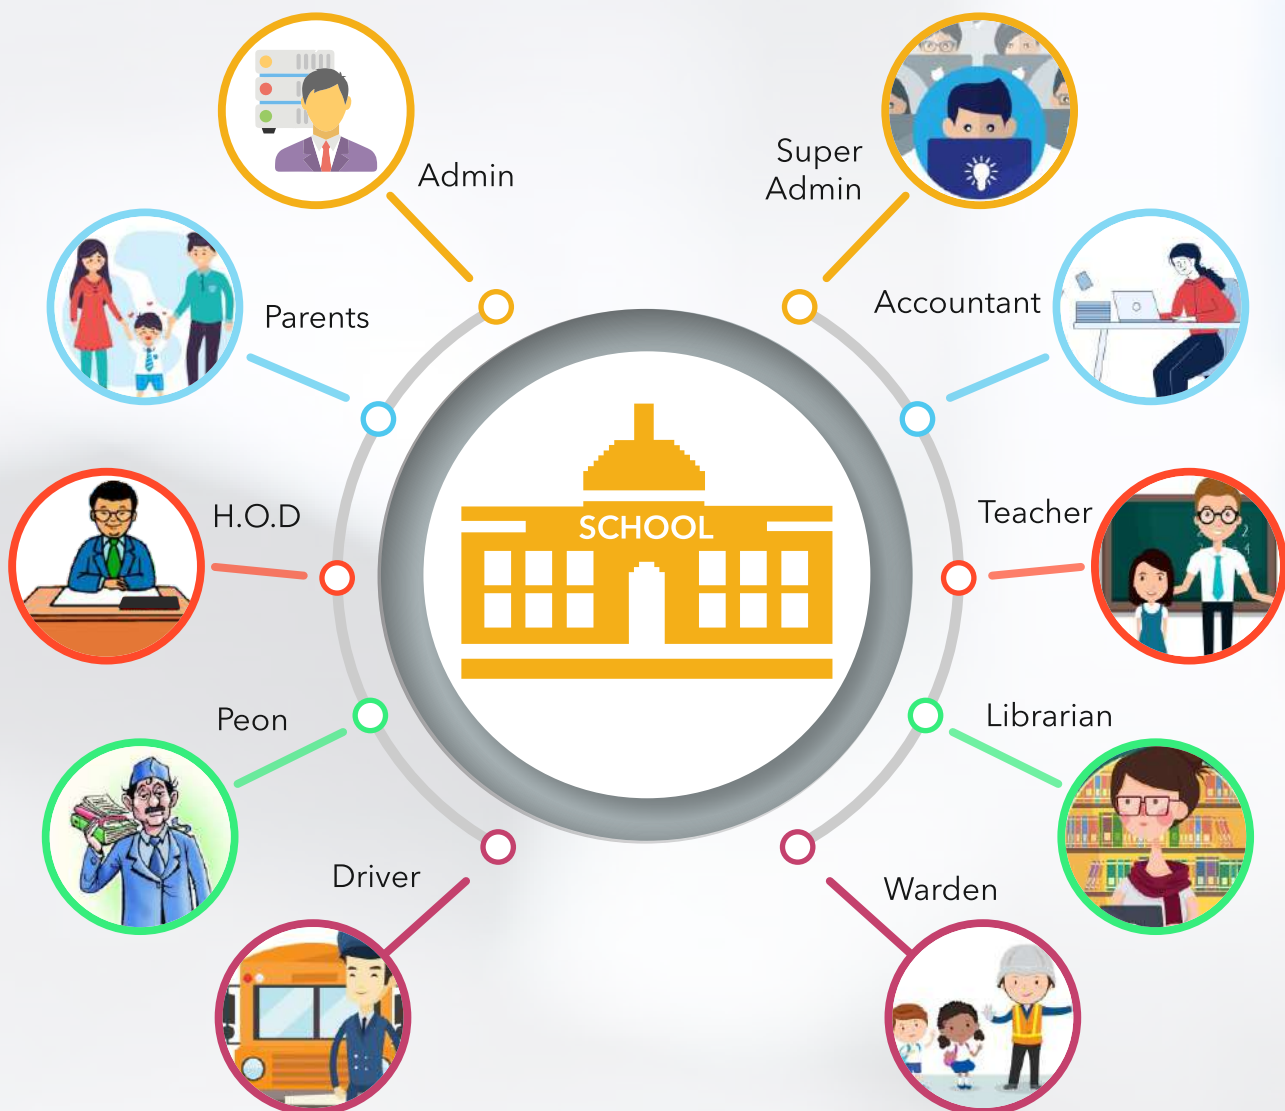

Connect Edu is a web-based student information system providing complete solution for your educational institutions. Super administrators, office administrators, teachers and parents can see their student's progress anytime during the academic year with access to their historical data for ongoing analysis.

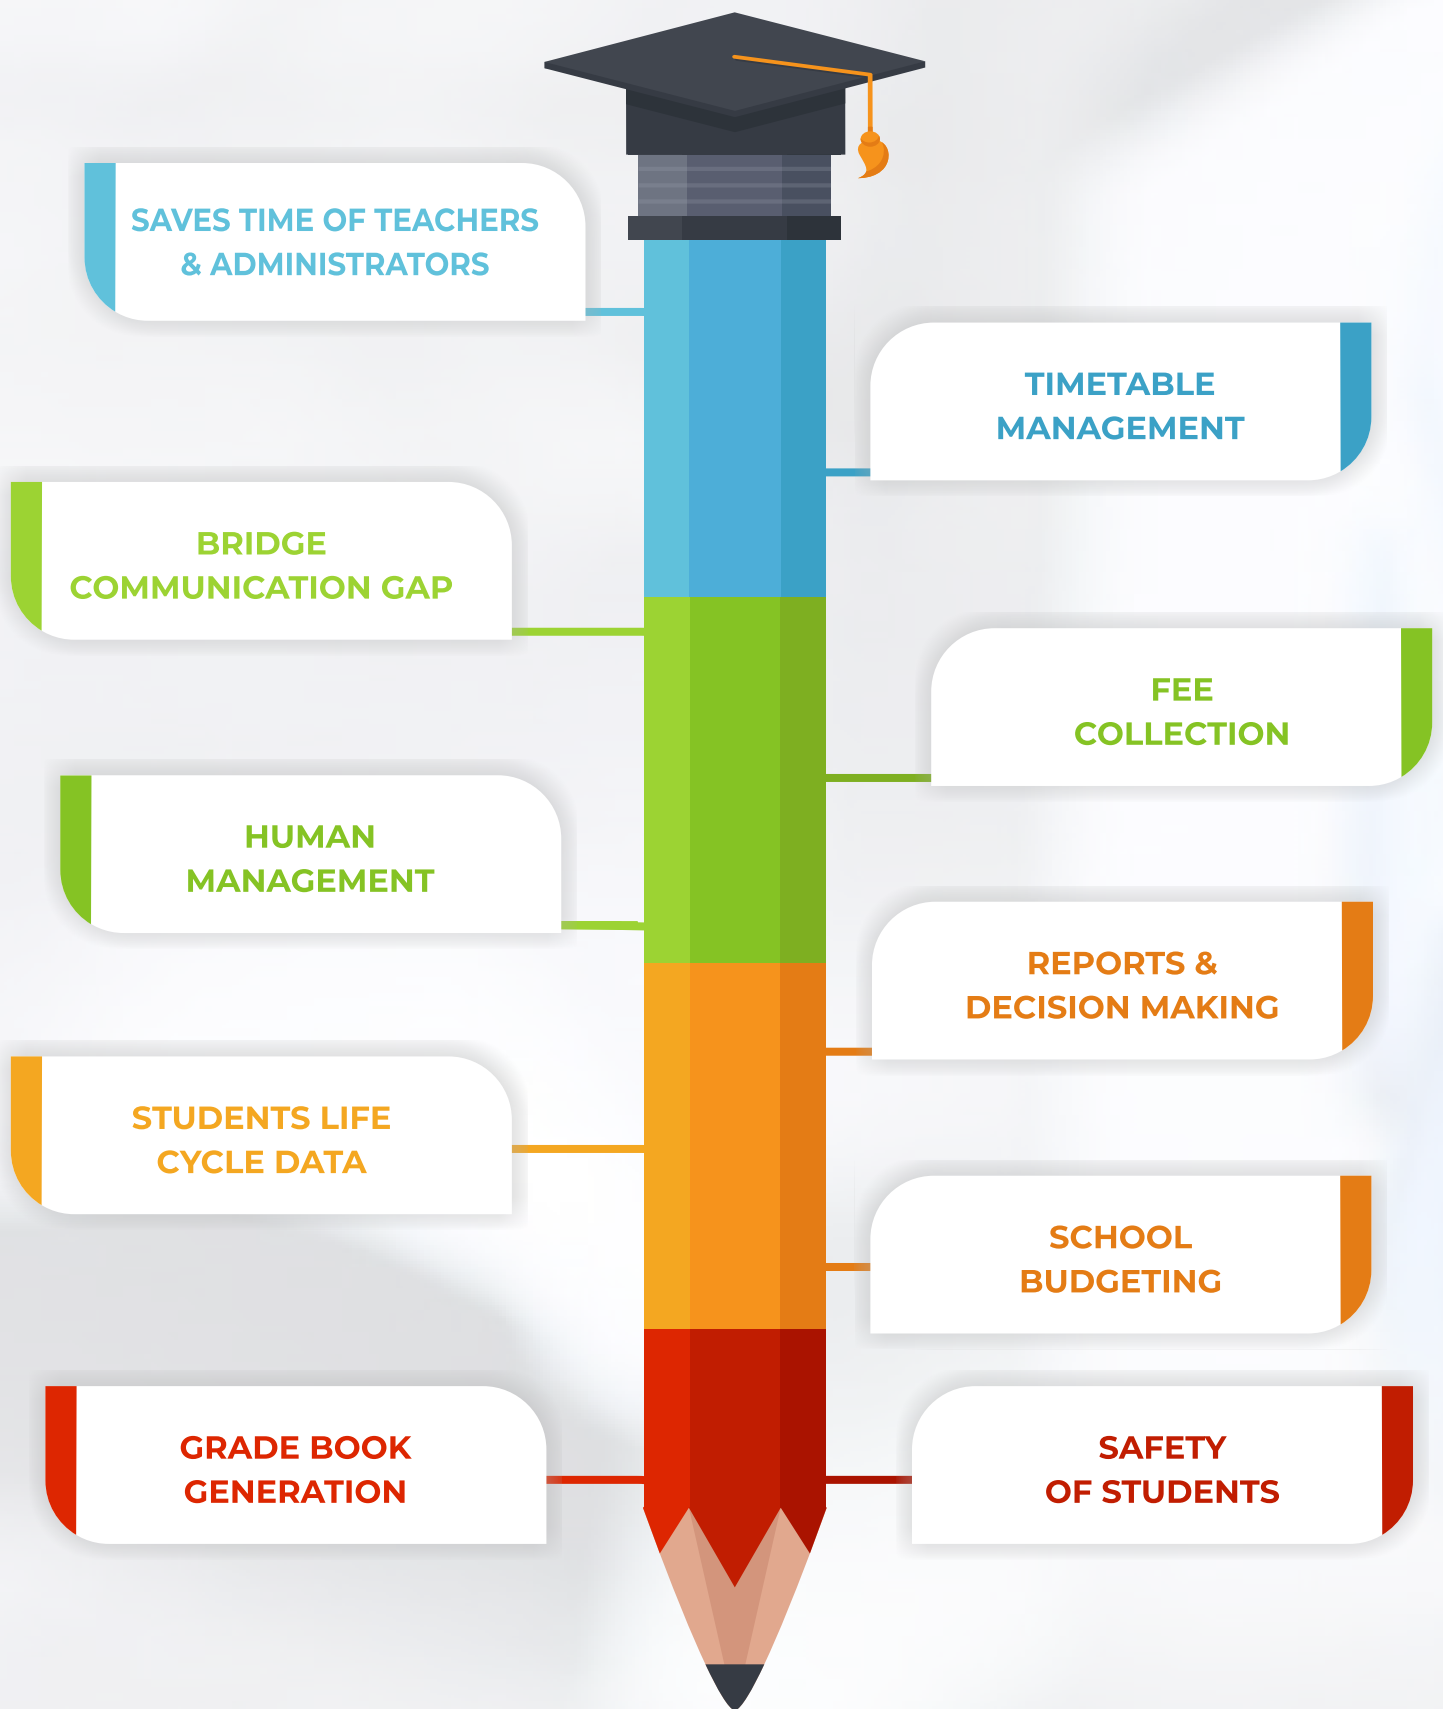

It allows them to easily manage various entities of your educational institute. Additionally, the flexible reporting options allow all system users to view school information in different but most useful formats.

This is the only solution with low cost but complete coverage of all your institutional needs including registration-enrollment, scheduling, attendance, counselor function, grade book, academic history, class management, employee security and attendance, tuition billing, online fee payment gateway, SMS communication, text book management and parent/student access.
